Reman

CAT REMAN ANNOUNCES UPGRADES OF 3116 AND 3126 COMPLETE ENGINES FOR CAT® MARINE PLEASURE CRAFT APPLICATIONS (ADDED JUNCTION BOX, WIRING HARNESS AND ASSOCIATED SENSORS)

Product Introduction

In an effort to provide our dealers/customers with more service options and offer dealers a competitive solution to protect and regain market share with Marine customers, Cat Reman is pleased to announce upgrades to the current 3116 and 3126 Complete Engines to support select Marine Pleasure Craft applications. These engines will now come with a junction box, wiring harness and associated sensors. Refer to the Coverage Chart on the next page for model specific information. Always refer to the Reman Technical Supplements to confirm engine consists and compatibility for specific engine arrangements.

Features and Benefits

Cat® Reman engines, long and short blocks expand the repair options available. When used with other Remanufactured products and reusable components from the core engine, these service options can help reduce turnaround time and decrease downtime. Customers who want fast repair turn-around, superior quality and reliability, and lower repair costs will benefit from the use of these Remanufactured components. Cat Reman components provide immediate, off-the-shelf availability at a fraction of the new price, perfect for giving boats "new life".

Features	Benefits	Customer Value
Same-as-new performance	Remanufactured using only 100% Cat parts	Guaranteed for fit and function
Latest engineering advancements	Implements critical design improvements for performance and/or productivity	Reliability and durability
Parts availability	Parts stocked in appropriate locations around the world	Reduced repair time and downtime – faster overhauls
Competitive price	Priced at the level the supports OEM value	Value priced
Solid warranty protection	Full Marine new engine warranty	Consistent, global warranty support
